PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Response to Amendment

The reply filed on April 16, 2009 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the response of April 16, 2009 refers to the arguments present to claim 1 in order to provide reasoning as to why claim 6 reads over the prior art of record, however, this is still found to be non responsive when the arguments, especially the first box of the comparison of what limitations of claim 1 are lacking in the prior art is not the same claim language that is found in claim 6, therefore, since claim 6 has different claim limitations than that of claim 1 especially with regards as to why the claims read over the prior art rejection, then such is found insufficient to determine applicants position on why the limitations of claim 6 read over the prior art rejection, and therefore applicant has not met the requirement for a detailed description of how the claims, including any new claims, read over the prior art rejections as required. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James F. Hook whose telephone number is (571) 272-4903. The examiner can normally be reached on Monday to Thursday.

Art Unit: 3754

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Shaver can be reached on (571) 272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
